The Electric Drive Transportation Association (EDTA) is closely monitoring the situation surrounding the Coronavirus (COVID-19), and we are committed to keeping all participants updated on any new information that could impact EVS33 in June, 2020.

There are currently no recommendations from the federal government mandating events or meetings be postponed or cancelled due to COVID-19. The state of Oregon will, however, prohibit all gatherings of over 250 people for 30 days beginning March 12. A 30-day federal limitation on entrance to the U.S. from parts of Europe has been instituted beginning March 13.

We are following guidance from the World Health Organization (WHO) and Centers for Disease Control and Prevention (CDC), as well as recommendations set forth by the United States government. We are also tracking industry-specific information from the leading trade show associations, including International Association of Exhibitions and EVENTS (IAEE), the Global Association of the Exhibition Industry (UFI), and the Professional Convention Management Association (PCMA) regarding best practices.

EVS33 is the industry’s premier international symposium and EDTA’s work to deliver a successful, well attended business experience for all participants continues. EDTA will continue to update all participants, as needed, and we will provide regularly updated information on travel for EVS33 attendees.

We look forward to seeing you in Portland in June.

Sincerely,

Genevieve Cullen

President
World Electric Vehicle Association (WEVA) and Electric Drive Transportation Association (EDTA)
