## EVS33 Cancellation and Refund Policy

The Electric Drive Transportation Association (EDTA), host and organizer of 33rd World Electric Symposium and Exposition (EVS33), has made the unfortunate but necessary decision to cancel the event due to the COVID-19 pandemic.

EVS33 organizers are tremendously grateful for all stakeholders that planned to participate in the event, and we recognize the inconvenience posed by this cancellation. These are extraordinary times and EDTA asks for your patience as we communicate the necessary processes and dedicate vital attention to the individual needs of all stakeholders.

**Registrants:** The cost of your registration, minus a \$50 administrative fee, will be refunded within the next 60 days. No further action is required at this time.

**Exhibitors and Sponsors:** We will be in direct contact with you in the coming days regarding the processing of your appropriate refund. No further action is required at this time.

**Juried-Paper Program – Authors of Accepted Papers:** Your work is critically important to the advancement of electric mobility worldwide and we will be in direct contact with you in the coming days to share options for the management of your accepted paper.
